Dear Sir,
Please reject the NAB's petition 04-160. The service that XM provides is not a free service. I choose to pay for this service. I drive for a living and use the 24/7 traffic and weather report. No one else offers this service. I cannot understand why the National Association of Broadcasters have a problem with this issue, being they do not offer this service. Please allow XM to continue the programming they have.

Thank you,
Danny Knowles (A registered voter)
